ARRESTED FOR ILLEGAL POSSESION OF GUNS

On Friday, the police accidentally found the guns belong to Markino, 36, a former pilot of Narada and Bisma charter airlines. This happened after a friend of his was arrested for using an expired credit card.

However, The Police Chief, Lt. Col. Jujuk told reporters here yesterday that the temporary investigation of Markino did not give any clue that he and his friends had any criminal record. "We hope the public can help us by providing some information about the group". He said. During police questioning, Markino said that he was going to deliver the guns, a Raven caliber 25 and a Smith & Wetson caliber 38, to someone who planned to use the gun for self-protection.

On Friday evening Markino, accompanied by his two friends Purwanto and Suratin, went to deliver the guns to the person, who happened to be Purwanto's father. On the way, they stopped at Pinang Dua Shopping Mall in South Jakarta, to make some purchases. Purwanto bought a wallet and attempted to pay for it with his brother's expired credit card, the expiration month of which he had manually altered. After a heated argument with the cashier, a police was called and Purwanto was questioned.

Minutes, later the police found the Raven handgun put into Markino's booth, and the S & W under the front mat of the car, which belonged to Purwanto. Markino admitted that the two handguns and the bullets belonged to him. He told the police that he bought the Raven along with 20 bullets at Rp 2 million in 1988 from Andri, an employee of a stateowned company. He bought another one along with 20 bullets at Rp 1,2 million two years later from Krislan, whose full identity was not disclosed by the police.

The two were arrested yesterday morning together with another person, identified as Sanadah, who originally owned the S & W gun. But Sanadah told the police that he got the gun from his brother who is now in the Netherlands.

Meanwhile, Andri said that he got the Raven from a foreigner, who used to work in Kalimantan. His nationality was withheld. "The latest information available to police says that the expatriate had returned to his country", said the police chief. We'll ask Interpol to help us to shed

more lights on the guns. Markino's case shows that there are still many members of our society who possesses guns without any legal document.

Markini, a father of two, has a record of 6000 flying hours. When contacted with the Jakarta Post yesterday, officials from the two airline companies said that he had a good reputation

Markini, after graduating from the Alfa Academy of Aeronautics in San Francisco, worked two years at Narada in early 1980s and spent almost eight years at Bisma airlines. When allowed to speak with reporters, Markino said that he had never used the guns against the law, "I used them to protect myself. He added that he did not know that possessing a gun is illegal in Indonesia. According to Article 1 of the 1951 Emergency Law No 12, Markino could face a death sentence or life imprisonment or a maximum a 20 years in jail if he is proven guilty.

A. Answer the following questions briefly.

1. Has Markini ever been jailed before?
2. According to Markino, what are the guns really for?
3. Who was going to receive the guns?
4. How did the cashier know that the credit card was expired?
