5. Had
6. Fell
7. Were
8. Lives
9. Has
10. Develop

**F. Give your opinion about English class in a good 5 sentences!**

For me English Class is a good way to improve the way we understand English and Hone our skills. Even though at times I really feel that I'm not making any progress in the class, because of the material the teacher gave me, there is a way to review everything that has been studied up until that point. The real point of English Class is to understand more of the language. Even though some of us is already skilled in the language, the others can learn something new and the ones that are more capable can teach the others. To close things off English Class is really helpful for everyone.
