The screenshot shows a web browser window with the URL kulon2.undip.ac.id/mod/quiz/attempt.php?attempt=469633&cmid=294714&page=31. The page is for a quiz titled "[SIAP] Jaringan Komputer A" by Kulon Undip. The current question is Question 32, which is not yet answered and is worth 1.00 mark. The question asks: "Protokol yang selalu meminta konfirmasi adalah?" (Which protocol always requests confirmation?). The options are a. UDP and b. TCP. Option b is selected. There is a "Clear my choice" link and a "Next page" button. The time left is 0:26:23. On the right, there is a "Quiz navigation" grid showing 35 questions, with question 32 highlighted. Below the grid is a "Finish attempt ..." link. At the bottom, there is a "Previous activity" section with a link to "contoh soal chacing" and a "Next activity" section with a link to "Tugas Demo Socket Programming Kelas A".
